The first challenging task of the Apex Council was to successfully host the first test Match of the 2023-24 series between India and England at Rajiv Gandhi International Cricket Stadium from 25th to 29th January 2024.

Although during the ICC ODI World Cup the stadium was renovated to a large extent, there was still a lot of work pending to complete the venue. There was only 3 month time before hosting the Test Match. This was apart from the challenges of Managing the Event of the Test Match.

Despite their inexperience at the helm of HCA, the new Apex Council successfully hosted the test match without any glitch and sold over 26000 tickets, a record for test match at Hyderabad.

Each school will witness one day of play in this 5- day test match. Lunch will be provided to the school students. Annual Reports & AGM 2024

The publication of Audited Annual Reports of the Hyderabad Cricket Association (HCA) were pending since 2018-19 for some reason or another.

Getting the audit completed for five consecutive years from 2018-19 till 2022-23 was a mammoth task that was successfully undertaken by the current elected Apex Council who took over the Management of HCA in October 2023. They organized the 86th Annual General Meeting (AGM) of HCA the 18th day of February 2024 and got the pending Audited Annual Reports approved and published.

The 86th AGM under the chairmanship of Sri. A Jagan Mohan Rao, President HCA was conducted smoothly and apart from acceptance of the Annual Reports, several resolutions for improvement of facilities, cricketers and budgets were passed.

Team Selection Process for BCCI Tournaments

The New Apex council brought about transparency in the team selection for the BCCI Tournament. By the time they took up the office of HCA and settled down, Teams for Vinoo Mankad Trophy, Syed Mushtaq Ali Trophy, Vijay Hazare trophy and Cooch Behar Trophy were already selected and matches were underway.

Traditionally, before the long format tournaments of BCCI, HCA use to organize Zonal tournament with potential players, review players performance and form and then select the final team of 15 players to the tournaments. This tradition was abandoned off late. The New Apex Council revived this tradition.

The potential players were divided into 6 teams and played the zonal tournament. The final team for Ranji Trophy 2023-24 and later for Col. C K Nayudu Trophy 2023-24 were selected based on players performance and form in this zonal tournament. Both the tournament and Team Selection was announced on the HCA websites.

The result was Hyderabad Team went on to win Ranji Plate Group 2023-24 and qualified for the Elite Group for Ranji Trophy 2024-25 tournament and did well in Col. C K Nayudu Trophy 2023-24.

Development of Cricket at Grassroot level is of vital importance. Realizing this, the New Apex council called for Open selections for U-14 State Team, 1855 players attended the same for 3 days including district players. Out of 1855 players, 180 players were selected and divided them into 10 teams and to play each other.

Quest for New Cricket Stadium & Grounds for Development of Hyderabad Cricket

The Apex Council represented by its President Sri A Jagan Mohan Rao and Treasure Sri C J Srinivasa Rao made a representation to the Hon. Chief Minister of Telangana Sri. A Revanth Reddy Garu stating that;

“The current stadium has a seating capacity of 37,000 and parking facilities for only 500 cars. Additionally, the stadium's location in a heavy-traffic area leads to severe congestion and parking issues, causing significant discomfort for fans. With the ever-growing demand for tickets for international matches and the IPL, there is an imminent need for a stadium with a 100,000-seating capacity and ample parking facilities. During the league season, the HCA is also compelled to rent 30-40 private grounds in the Hyderabad region to conduct league matches. However, these grounds do not meet the BCCI norms and do not provide the necessary playing conditions for aspiring cricketers.

In these circumstances, we sincerely and humbly request your consideration in allocating 100-120 acres of land in the Hyderabad city region, preferably closer to the airport and with Metro Rail connectivity, for purchase. This land would be utilized to build a cricket stadium with world-class facilities and ample parking, five practice grounds for conducting league matches, a high-performance academy, and an administrative block for office purposes.”

The TSSPDCL officials cut the RGICS power during team practising sessions, thus harming the reputation of HCA. The president requested the TSSPDCL CMD to take appropriate action against those officials.

Development of Cricket at District Level

HCA President Sri Jagan Mohan Rao along with Secretary Sri R Devraj, Vice President Sardar Daljeet Singh, Treasure Sr. C J Srinivasa Rao laid the foundation stone of Turf wicket and stadium at Mahbubnagar. The mission is to bring first class cricket to the districts not only to inspire young cricketers there but also to give them better facilities to develop the game. There is also a plan to set up satellite academy there.

Development of Cricket Facility at Mahbubnagar

Absence of Turf Wickets at districts could not provide the players any experience of playing on turf wickets where higher level matches are played. To develop the full potential of talented district cricketers it is imperative that they have access to quality turf wickets.

In their quest to develop cricket at district level, the Apex Council took the first initiative in this direction by breaking the ground and laying the foundation of turf wicket at Mahbubnagar district with a financial outlay of Rs.80 Lakhs. The larger quest of the Apex Council is to lay turf wickets in all districts along with stadia capable of hosting first class cricket matches.
